### BlackSDA \_ 3ABN \_ Melody

Messages from Alyssa and Barbara Kerr are enough. But there's much more that needs to be cleared up. For example, Melody Shelton's adulterous situation and being promoted by Danny as a very spiritual girl. Just try to find the date of her latest marriage and put with that the date of her latest child's birth. The 3ABN Board has been negligent in taking Danny to task for the Melody situation. She should not be permitted to sing on their programs. All the other sexual allegations need to be looked into also. The financial allegations need to be looked into. Tommy's gone now which is good. Danny's time of involvement with Brandy needs to be investigated and I believe it will be seen the present situation is a state of adultery. Both Danny and the Board state there is no evidence of adultery on Linda's part. They both used the term "spiritual adultery." That really is an oxymoron. There is no such thing listed in the Bible as grounds for divorce and remarriage. Again, I believe the Board has been negligent in its duty. We certainly cannot donate funds to 3ABN any longer until this thing is cleared up. How could a minister working with 3ABN perform Danny's latest marriage. The ASI could have them disconnected from the ASI but I believe it will take legal action from the Attorney General to hit them on the financial allegations before anything will get cleared up. It is off limits, and some of you knew that! Yet you jumped at the opportunity to indulge yourself in exposing dirt on what I consider a bit player in this whole saga. This woman pass marriages and whatever does not deserve to be exposed here.
