Bob and Galion,

Here is my statement. It has taken me a while to come up with the courage to write this, but at any rate I feel compelled to do so. It is with much prayer and humbleness that I do this, not for my OWN reasons for the sake of my family who I'm scared will suffer the same acts of molestation.

Back in the summer of 1997, I spent some time in Virginia with my brother, while my brother and sister in law was attending classes to possibly adopt. There was a few occasions where I was left under the care of Pastor Tommy and Sister Carol Shelton. On a few of these occasions I was touched in improper places by Tommy Shelton. These occurrences were perpetrated either at the church of God in Virginia where Tommy pastored or on bike routes where Tommy thought no one was looking. NEVER was there any sexual penetration of any sort just "TOUCHING" where Tommy touched me and asked me to do the same to him.

As I have said, this has been hard for me to finally do, seeing that I face ridicule from some of my family and friends. However, for the sake of my niece and nephew I am writing this to you now. Some people may ask why do you come forward now. My response to that would be I am in a tougher spot of coming forth than most may think seeing that Tommy is basically family.

Do I hate Tommy? NO, but I dont want anything to happen to anyone else. That is why I am writing this statement to you now.

May God Bless you in all you do!

Alex L. Walker
